Language is the main key for humans to communicate with one another. The language used by humans to communicate is usually in form of speech. The speech could be expressed in written or oral way through mass media. A speech happening in the communication process is a result of speech acts.

Speech acts are one of pragmatic elements involving the speakers, listeners, or writers and the readers, and the topic being discussed. The speech acts are implemented in several disciplines. Speech acts are individual symptoms, psychological in nature, and lasts based on the ability of the speakers in dealing with the speech situation. The meaning of the speech acts is the essence of someone’s speech acts (Chaer dan Agustina, 2014: 50).

Speech acts might happen in interview session between the interviewer and interviewee. One of this example is in a talk show program. Kick Andy is a talk show program on Metro TV in form of casual talks by presenting some information and different speakers according to the topic. desired meaning to present. The indirect speech acts, however, causes redundancy due to the variety of the audience (Irma, 2017: 239). Therefore, the understanding of assertive speech acts is needed.

Assertive speech acts are also called as representative speech acts. Psychologically, assertive speech acts bind the speakers to the proposition or truth presented by the speaker. Leech (2011: 327), classified the assertive speech acts into seven, namely (1) strengthening, (2) guessing, (3) confirming, (4) assuming, (5) predicting, (6) announcing, and (7) insisting.

Anto: *Perspektif yang harus diluruskan sebenarnya Mas. Bukan hanya perempuan yang harus berjuang untuk perkawinan Indonesia anak tapi, laki-laki. Ketika laki-laki sadar bahwa tugas laki-laki untuk mengayomi dan melindungi harkat martabat perempuan sebagai calon ibu bangsa, laki-laki ini akan menjaga perempuan secara utuh. (This kind of perspective should be changed, Mas. Not only women but also men should fight for the marriage. When men realize their responsibility to protect the women’s dignity as the candidate of mother, they will...*)
try hard to protect the women.)

Putri : Asal dari kabupaten Bandung dan berkuliah di Bogor sekarang. (I am from Bandung regency, but now I stay in Bogor)

Andy : Kuliah di mana? (where do you study?)

Putri : Di IPB University. (In IPB Agricultural University)

The speech acted by Putri in data (3) belongs to speech act of stating. It can be seen from the excerpt “Sekarang Putri umur 19 tahun, Asal dari kabupaten Bandung dan berkuliah di Bogor sekarang (now Putri is 19 years old, originally form Bandung Regency, and now study in Bogor). As the host, Andy asks the guest speaker about the information on the high level of child marriage in refuge in disaster areas: Palu, Sigi, and Donggala.

Data (4)

Andy : Apakah benar berita bahwa cukup tinggi perkawinan anak di camp- camp pengungsii di daerah bencana di sana. Betulkah itu? (Is it true that there is a high level of child marriage in the refuge of disaster areas?)

Soraya : Kalau dari bulan Oktober pasca bencana ada 18 kasus yang kita pantau dari 12 camp dari 400 camp yang ada di Palu, Sigi dan Donggala. (we control 12 refuges out of 400 refuges in Palu, Sigi, and Donggala. From the 12 refuges, there are 18 cases of child marriage during October after the disaster.)

The speech in data (4) belongs to assertive speech act of stating. It is informed in Soraya’s speech “Kalau dari bulan Oktober pasca bencana ada 18 kasus yang kita pantau dari 12 camp dari 400 camp yang ada di Palu, Sigi dan Donggala (we control 12 refuges out of 400 refuges in Palu, Sigi, and Donggala. From the 12 refuges,
there are 18 cases (of child marriage) during October after the disaster). The speech becomes the marker of stating something or revealing facts about the situation happening in disaster areas of Palu, Sigi, and Donggala.

**Assertive Speech Acts of Complaining**

Complaining is an expression stating the feeling that is in opposite of the desire condition showed intentionally to obtain others’ empathy. The example of this speech acts can be seen in the following excerpt:

**Data (5)**

**Speech Context:**
The conversation is between Andy (host) and Putri (guest speaker). Andy asks putri why she is able to be a successful teenager compared to the others who get involved in early marriage. Putri said that she reflects on her relative’s failed-early marriage.

**Andy** : Jangan nangis? (Don’t cry)

**Putri** : Nggak Om, karena jadi anak dari kehidupan single parent itu cukup tidak menyenangkan. (No. I don’t. becoming a child of single parent life is not a pleasure)

The speech in data (5) is categorized as complaining assertive speech acts. It is proven from Putri’s speech “karena jadi anak dari kehidupan single parent itu cukup tidak menyenangkan” (No. I don’t. becoming a child of single parent life is not a pleasure). The phrase ‘cukup tidak menyenangkan’ (not a pleasure) mark the complaint felt by the guest speaker.

The speech acts of complaining are also found in data (6). In this part, the host asks the guest speaker about the content he mentions related to children’s right in child marriage in the United Nation hearing. It is revealed in the following excerpt:

**Data (6)**

**Andy** : Ketika berbicara hak-hak anak dalam konteks pernikahan usia anak apa yang kamu sampaikan waktu itu? (when you spoke about the children’s right in child marriage context, what did you mentioned at that time?)

**Putri Gayatri** : Pertama dan paling utama adalah regulasi Mas. Jadi, kita tahu bahwa undang-undang perkawinan kita masih menetapkan batas usia minimum untuk perempuan menikah adalah 16 tahun dan itu sangat bertolak belakang dengan undang-undang perlindungan anak, kita disuruh wajib belajar 12 tahun terus kaya gimana dong nggak harmonis sekali gitu. (The first and the main point is the regulation, Mas. As we know, the law on marriage mentions the minimum age for a woman to get married is 16 years old. It, however,
breaks the law on child’s protection in which a child is required to implement the program of 12 years of mandatory study. It is very irrationale and irrelevant.

The excerpt reconfirms the complaint on the law in Indonesia. The programs and campaign to stop child marriage is worthless because of the contradictory applicable law.

Putri Gayatri : Remaja itu bangun bangsa, bukan rumah tangga. (teenagers should develop the nation, not get married)

Based on the above excerpt, the emphasis answer in form of suggesting is reflected in “Remaja itu bangun bangsa, bukan rumah tangga” (teenagers should develop the nation, not get married). It indicates the message or suggestion for teenagers to make achievement to develop the nation and not to get married as teenagers.
