A. Symbol

The are many elements on the novel that the reader want to keep reading it. Symbol as one of the elements important the reader not only to flow with the plot but also to discover the aim of the work. Theory of literature by Wellek and Werren (1977:186) states that symbol is words or others communicative things such as gesture or that stand for something else. For example: A flag is a piece of cloth which stand for (is a symbol of) a nation. A symbol has complex meaning; it has not only ‘literal’ meaning but also additional meaning beyond the literal meaning. Sometimes the literal meaning of symbol is absurd. A symbol may have more than one meaning. X.J Kennedy in literature: An Introduction to fiction, poetry, and drama third edition (1993:45) states that the word symbol derives from the gesrek verb symballen, to trow together and it noun symbolon, ‘mark’ and ‘sign’. Symbol is the use of the word, a phrase, or a description, which represent a deeper meaning than the words themselves. Symbol is something used for, regarded as, representing else. More specifically, a symbol is a word, phrase, or other expression having a complex of associated meaning; in this sense, symbol is viewed as having values different from those of whatever is being symbolized. Symbol, however, also indicate their own reality. For Example, a cross not only stand for suffering, but also stand for christian suffering.

There are some of symbol in various definition by some expert, they are:

According to Wellek and Werren Theory of Literature (1977:45) state that there are kind symbols, they are:
1. Private Symbol
   It is symbol which is usually interpret in the whole context of character in novel.

2. Conventional Symbol
   It is symbol which study and which stand to mention or substitute something.

3. Natural Symbol
   It is symbol which is usually interpret about nature.

According to Hartono and Rahmanto in Sobur (2006: 157) classify symbol into three categories, they are:

1. Universal symbol
   It is symbol which deal to archetype.

2. Cultural Symbol
   It is symbol which is influenced by certain culture.

3. Individual Symbol
   It is symbol which is usually interpret in the whole context of a writer’s work.

Symbol is one of many aspects of language which can indicate an author’s style. Hemingway uses symbols to give the reader a better look and an easier understanding of what the story is about. The use of symbolisms in his novel gives deeper meaning. The major symbols that Hemingway uses in his novel are sea as the setting of his story, the main character Santiago (the old man), Marlin (
great fish) which gives a meaning to the old man, Manolin, bird, lion, Joe Di maggio, the sun, harpoon, and shark which stand for the life. In both the sea and universe, there are a number of elements and possibilities that man has to face and experience, some are gifts to be struggled and some are problems to be defeated.

In writing, symbolisms is the use of a word, phrase, or description, which represent a deeper meaning than the words themselves. This kind of extension of meaning can transform the written word into a very powerful instrument. Symbolism occurs when the theme or emotion underlying a story. Without symbolisms a story with plot and action will get wrong. plot and action are important but to much of it leaves your story reading like a screenplay. For novel the characters have to have time just exist. The reader needs to have a chance to catch their breath.

**B. The Concept of Optimistic**

Optimistic is performing the life by practicing values and attitudes which is described as the characteristic of optimism. The optimist is someone who has several characteristic that bring him or her into the great life. The optimist are the ones who know that they desire and hope and believe they are able to get it successfully then they attempt to obtain it confidently and achieve it. They believe in God who is very near and present in very pure and impulse of their hearts. Heart as the source and centre of all minds compasses all truth and converts the shadows to realities. With their spirit they can see the whole word, from this they reach their confidence and trust that can protect them from doubt and fears. A man must understand evil be acquainted with sorrow before he can write himself
an optimist and expect others to believe that he has reason for the faith that is in him. With the knowledge he can chase the evil away. Then the struggle is one of great blessing that makes them to be strong, patient and helpful men or women. The optimist will use every time and circumstances to break away the obstacle that blocks their desires. Their soul will beat glad march to every new discovery, for them every fresh victory comes over difficulties and every success adds to human knowledge and happiness. Seligman adds that the central skill of optimism is the power of non negative thinking, it is someone’s ability in changing the destructive things he says to himself when he experiences the setbacks that life deals all of him (Martine Seligman, 2006: 15).

From the above statements about optimism, the writer sums up that optimism is a hope which is convinced to reaching what has been hoped. So the writer thinks that values of optimistic are hope, everybody’s heart and mind to give him power, struggle, everything that the people want must be efforted and foughted when an obstacle blocks it.
